

# HERE AT CULPITT, WE'RE COMMITTED TO BUILDING A SUSTAINABLE FUTURE

Here's a few of the changes we've made so far...

Our sugar pipings and candle packaging is now made of PET plastic - making it **easy to recycle**

We're no longer printing out our pricelists - we're **saving paper** by emailing them instead

We've introduced **biodegradable** piping bags

We no longer use plastic void filler packaging...

and have replaced with **recyclable paper**

We've **reduced the plastic** packaging on our baking cups by **85%**
