# Why choose Colour Splash?

## RELIABLE

Great results every time. You can rely on Colour Splash to deliver bright and vibrant shades, soft pastels or decadent metallics to suit your needs and achieve your vision.

## VERSATILE

Available in a range of formats, the versatility of Colour Splash means that you can mix into bakes, stir into icings, paint onto surfaces or spray onto decorations, just to name a few!

## DIVERSE

From primaries to pastels and matt to metallics, a diverse range of colours means there's a Colour Splash solution for every occasion and theme.

## GREAT QUALITY, GREAT VALUE!

We are proud to offer high quality food colours, so you get the best results every time at great value prices.

# Gels

Concentrated gel colours can be used to colour ingredients like cake mixes and all types of icing quickly and easily. A little goes a long way and it's possible to create bright and vibrant colours in an instant. Achieving the perfect shade is especially easy because the tube has a precision nib, that slowly releases the gel for a more controlled application.

# Dusts

These concentrated pigment colours are suitable for a variety of applications including colouring sugar pastes, buttercream and icings. A dust is particularly useful for delicate brushing to achieve sheer or graduated colour or fine highlights. Depending on the desired intensity of the result, it's best to build up colour gradually and sometimes, less is more. Lustres are particularly effective when used in this way.

# Paint

Available as matt, metallic, pearl and glitter finishes, they are the quick and easy colouring solution for covering cake or decoration surfaces. Colour Splash Paints are liquid colours. Simply use a suitable clean brush and paint straight from the container or try a natural sponge to apply to larger areas.
